Did a "0" print next to Biden's name on the Zero report?

So far, this is the only one that has notified us of this type of incident.

Hi Julie

Is this happening anywhere else?

Just trying to see if it's machine specific.

Hi Julie,

Looking at the tape it looks like one ballot had an overvote and one had an undervote could that vote be an over or under? Did Darla try to rerun the test?

Thanks

Phil

Good Afternoon ~

Attached is a tape that Darla from Fox Crossing sent to us from her test.

She cast a ballot for Joe Biden / Kamala Harris and nothing is showing up for a vote cast for him on the tape.

If we are looking at everything correctly, it is recognizing the vote for Biden, just not printing the results on the tape??

What is our next step?

Thank you for any help that you can give us!!
