Message: I received a "thank you for registering to vote by mail in April" card at my address for a previous owner that has not lived here for at least 11 years. We have lived here for 11+ years. I know this Don Smith lives in Michigan since I had to find him to notify him of a package that was delivered for him when we first moved here. I knew he lived in Michigan and was able to look him up from info from the 2nd owners we bought the house from. He should not be registering to vote in Wind Lake, WI since he does not live here. Strange he is being thanked by someone from Illinois? If Don Smith cast a vote in the April Elections here in Wind Lake or even registered, it was fraudulent. If someone did this in his name and his name is still on the voter roles here that is government negligence and evidence mail registration leads to vote fraud. See Attached picture of the "thank you for registering" and also another advertisement that came in Don's name. This fraud needs to be addressed.

Message: There is a very disturbed man ranting like a lunatic and telling provable lies about the election in order to undermine election integrity. Not only that, he's stolen hundreds of thousands of dollars from taxpayers by pretending to do a legitimate investigation. This is fraud at the highest levels and he literally advocated nullifying the votes of Wisconsin. Please stop this flagrant fraud asap. I've attached one of the

AGREEMENT FOR LEGAL SERVICES

This agreement for legal services is effective May 1st, 2022. This agreement is between The Wisconsin State Assembly (hereinafter referred to as "the Client") and Consultare LLC, a Wisconsin limited liability company, by and through its President Michael J. Gableman (hereinafter referred to as "Gableman").

RECITALS

- A. The parties previously entered into a series of contracts for services related to the staffing of The Office of The Special Counsel (hereinafter referred to as the "Office"). The second and final amendment to said contracts is set to discontinue after April 30th, 2022.
- B. The Parties desire to enter into a further agreement for legal services provided by Consultare, LLC so that the Office may remain open in order prosecute a series of lawsuits the Office is engaged in.

TERMS

- 1. The client desires to engage Consultare LLC and Gableman for legal services related to the prosecution of lawsuits involving the Office.
- 2. Gableman will execute his duties to the client in accordance with all standards of care, including confidentiality and attorney-client privilege, with respect to an attorney-client relationship with the Client.
- 3. Gableman will work as lead counsel at the direction of the Client in all matters and in cooperation with outside counsel James Bopp of the Bopp Law Firm in all matters in which the Bopp Law Firm is retained plus any other outside counsel retained.
- 4. The Client will pay Consultare LLC the current salary of Gableman of Five Thousand Five Hundred Dollars (\$5,500) per month for all legal services including but not limited to representation, advice, consultation, and litigation strategy, plus the current rent of Two Thousand Five Hundred Dollars (\$2,500) per month for maintaining the Office, and reasonable expenses for operating the Office. Any other expenses are subject to the original budget set forth for the Office and must be preapproved by the Client.
- 5. Gableman will continue to work on, research, and execute any other legal duties related to legal challenges to the Office for the duration of the agreement.
- 6. Other outside legal counsel with written agreements with the Client will continue to be paid for by the Client. The Client will indemnify and hold harmless Consultare LLC and Gableman

while in the Office for any legal matters or challenges relating in any way to the discharge of the duties under this agreement.

7. This agreement represents the sole agreement between Consultare LLC and Gableman and supersedes any previous agreement between the two parties.
8. Client asserts that there are no conflicts of interest and that Consultare LLC represents no other branches of Wisconsin state government, state agencies, or other entities with an interest in the lawsuits involving the Client and the Office.
9. Consultare LLC will retain and remit all documents of the Client upon the Client's (or successor counsel) request within 30 days.
10. Either party to this agreement may terminate said agreement by providing written notice to the other party. Absent termination, this agreement will terminate upon the conclusion of all outside lawsuits involving the Office or special investigator, as either plaintiff or defendant.

In Witness WHEREOF, the parties hereby enter into this agreement as of the date first written above:

Open Records Policy

This document comprises the Open Records Policy (“Policy”) for the Office of the Special Counsel (“Office”), and is immediately effective upon signature of the Special Counsel. This document sets forth internal procedures for best record-keeping practices, with two goals in mind. First, to comply with all applicable Wisconsin state law, especially Wisconsin Stat. §§ 19.31-39. Second, to enable the Office to expeditiously complete its mission for the State of Wisconsin.

This document is not intended to have any binding legal force outside the Office. Rather, it is an internal manual for managerial purposes. For specific questions, please contact the Office, or consult the relevant sections of the Wisconsin Code, or the advisory manual published by the Office of the Attorney General, entitled “Wisconsin Public Records Law Compliance Guide” (“Guide”). A copy of this manual will be made available to all staff of the Office, including contractors.

Definitions

For the purposes of this Policy, the definitions laid out in the Guide are incorporated by reference.

Not all information received, collected, or compiled by the Office qualifies as a “record” under Wisconsin law. The Office, and the person of the Special Counsel, is responsible for establishing effective controls on record retention and production. This Office, and the Special Counsel, take seriously this obligation, as open records are the foundation for effective government in the State.

Policy

All Office staff, including Contractors and the Special Counsel, shall comply with Wisconsin Open Records Law. The Special Counsel is the sole custodian of records, and shall implement oral and written policies to ensure compliance with the law. When noncompliance is brought to the attention of the Special Counsel, he shall take corrective action, up to and including termination for cause of any contractor or employee relationship. The Special Counsel shall be responsible for maintaining and releasing records pursuant to Wisconsin Open Records law.

Open records requests made pursuant to Wisconsin law shall be promptly responded to. Records shall be made available to requestors as soon as practicable.

Compliance with this Policy shall be considered a part of all Contractor work-product, and shall be incorporated into all future contracts.

Personal Use of Devices

The Office makes available work-issue emails and equipment as appropriate. As with other entities of the Wisconsin state government, incidental personal use of work-issue equipment is permissible. Conversely, incidental work use of personal devices is unavoidable, especially among contractors. Staff and contractors of the Office have been instructed to promptly forward all records created by such incidental personal use to the Office, including relevant records created prior to the effective date of

this Policy. In consideration for compliance with this provision of the policy all Office Staff, Contractors, and the Special Counsel retain a reasonable expectation of privacy in their personal devices.

Special Note

The investigation conducted by the Office into the election of November 3, 2020 does involve information exempt from Open Records requests for the pendency of the investigation, Wis. Stat. § 19.36. Such information may include confidential business information, trade secrets, personnel records, law enforcement records, and other records otherwise exempt from disclosure.

Upon submission of a “Final Report” to the Assembly, or upon the disestablishment of this Office, this investigation will be considered closed. At that time, all records will be transmitted personally by the Special Counsel to the Assembly, Upon transmission, the Special Counsel will cease to be the designated custodian of record under Wisconsin state law, pursuant to Wis. Stat. § 19.33.

Message: Dear Sir or Madam, Could you tell me How to communicate with an American lawyer, former Justice and Special Counsel Michael Gableman? I have evidence, proving that Russian Kremlin-gates have conspired with the US Democratic Party and Hillary to make false accusations against the US President Trump, since 2016. I also have evidence, how and why Blinken, Sherman, Kerry, and so on have betrayed and sold the American Nation. Those corruptions, Crimes and Treason in the US mentioned above are very easy for me to prove as follows: In fact, many famous universities, top High-tech companies, authoritative scientific institutes in the US, the United Kingdom (UK), European Union (EU), and so on have followed and borrowed my 2nd rated inventions. Their pirating my 2nd rated inventions deserve Nobel Prizes. Moreover, Gore, Obama, the World Food Programme (WFP), and so on persistently refuse to follow or borrow my 2nd rated inventions, before and after that they were awarded Nobel Prizes. In the 2016 President Election, Hillary's the loudest slogan is: "We go high; they go low". However, if Gore, Obama, WFP, and so on even refuse to pirate my offering 2nd rated inventions, how can they go high?! Hillary and the US Democratic Party just sell the American Nation to exchange for funds and resources from the China Communist Party (CCP), in order for their so-called "go high". If you offer that evidence and report to the Russian Embassy, you will find and prove easily that the Russian Kremlin gates have conspired with Hillary and the US Democratic Party since 2016. In fact, I have invented at least 3 kinds of piston engines. One among them is the "Symmetries engine". Its power density is better than a small gas turbine engine. Other 2 kinds of piston engines can also support the full Hybrid car technologies. Comparably, the Tesla electric car and the Light (false) Hybrid cars are cheating customers, investors, governments and tax payers all over the world, just because their piston engines are too heavy. Because of my piston engine inventions,

Blinken, Sherman, Kerry need not beg the CCP to save the US economy, Green Energy policy, and so on. But how and why do they persist in doing this?! I have invented "Extra Air Circle", "Symmetries (piston) engine", and "Symmetries double action piston compressor". The "Symmetries (piston) engine" has a power density better than a small gas turbine engine. Its side thrust is 0, so that its working life is long. "Symmetries double action piston compressor" can replace the centrifugal compressor in the front of a gas turbine engine. "Extra Air Circle" can increase a heavy gas turbine engine power 3~ 4 times, and increase a light gas turbine engine power 4~ 5 times. That is to say, the US Navy need not build the novel and new DDG(X). The US Navy just needs to upgrade the Arleigh Burke class destroyer, since my inventions can offer the sufficient electric power to upgrade the Arleigh Burke class destroyer. Please forward this information and report to the US Navy, the White House, and so on, then you will find how corruptive they are, as the same as that I have found how the Russian Kremlin gates have conspired with Hillary and the US Democratic Party since 2016. Thank you! Yours sincerely, Liu Xiao-yu My email: Liuxiaoyu1900@gmail.com My mobile phone: 006(Malaysia)-014-3326 717

Message: We have smoking gun evidence that a 10 top Republicans secretly met in the capitol to counterfeit certificates for the Electoral College. They then mailed the counterfeit certificates to the national archive, Wisconsin Secretary of State and other official offices for the purposes of helping Donald Trump to steal the 2020 election and illegally remain in office. They should be punished far more than one person who commits fraud. They attempted to steal the election and negate 1.6 million votes. Their illegal actions are far worse than one person casting a vote by fraud. All 10 should be charged for the numerous crimes they committed. These Republicans met after all court cases were concluded and confirmed - repeatedly - that Joe Biden won Wisconsin and that Trump lost. This was no legal method for their counterfeit certificates to be accepted. The fraudulent scheme was aided in their efforts by numerous government officials including former state Senator Scott Fitzgerald, who reserved the room for them. Fitzgerald is an accomplice in the attempted crime and should be investigated. One of these election frauds actually sits on the Wisconsin Elections Commission, where he violates ethics laws and threatens our democracy. Senator Devin LeMahieu appointed Bob Spindell AFTER Spindell signed the counterfeit documents. LeMahieu rewarded illegal and fraudulent actions. Senator LeMahieu should remove Bob Spindell, the fraudulent elector from the Wisconsin

Elections Commission. We now know from numerous reports that the counterfeit electoral certificates were part of a nationwide effort to steal the election. The scheme was to have Vice President Mike Pence replace the official and legal Wisconsin electoral certificate with the counterfeit certificate. By doing so with several states, the Republicans intended to steal the presidency, along with Wisconsin's electoral votes. The Gableman investigation has ignored this blatant electoral criminality and is unqualified and too compromised to address it. I have more exhibits to share but the system here is clunky and prevented upload. Please contact me for additional exhibits. Thank you for your attention. Message: No individual gets to serve in elective office in defiance of the people's votes. Yet in Wisconsin in December of 2020, that basic principle of our democracy was attacked when 10 individuals, impersonating the legally selected and authorized Presidential Electors of the state, flouted the will of the people as expressed at the ballot box and fraudulently attempted to misappropriate Wisconsin's participation in selecting the next President of the United States. These fraudulent electors acted in violation of state law, which specifies that the people of Wisconsin choose the Presidential Electors through their votes on the November ballot. The fraudulent electors sent the false documents they created to the U.S. Congress, in an apparent effort to make sure that they would be counted as Wisconsin's actual ten electoral votes on January 6th. The rule of law is essential to a functioning democracy.

Attempts to subvert the will of the people of Wisconsin cannot go unchecked. Here is the list of Wisconsinites who blatantly broke the law and cast illegal votes: Andrew Hitt: The chairman of the Republican Party of Wisconsin from 2019 until 2021, Hitt is a partner at consulting and lobbying firm Michael Best Strategies. Kelly Ruh: Ruh is an alderperson for De Pere, chairwoman of the 8th Congressional District Republican Party, and a controller for Bay Industries in Green Bay. Message: You will to rename the attached file to read it. It is not a pdf file, but an MS-Word .docx file. However, PDF was the only format yo all would accept. I send a few prior notes on this topic. Tried with a .pdf file and the upload failed. The error message states you only accept docx files. Because the mainstream media blocks all consideration of Election Fraud issues (unfounded), I decided to do a deep dive into WI Election Fraud. I just reviewed all the research reports on WI 2020 Elections. These reports clearly state that there are over 439,679 illegal votes in WI. For example, votes to Drop Boxes are illegal. These fraud instances are outlined in Table

Two. I thought you might be interested in this summary. In addition, I am interested in any comments or improvement suggestions. Appendix A notes that it is impossible, under current procedures, to authenticate Absentee or Online Voters. We simply do not know who is voting 60% of the time. Appendix B lists a lot of voting irregularities. This list is not exhaustive there are thousands of possible attack vectors. My thinking is there are another 500,000 illegal votes from Appendix B once these irregularities are investigated. This report summarizes Election Irregularities. Good old Joe dropped his ballot into a Drop Box and that is illegal. Without a Forensic investigation and a Voter Canvas you cannot tell how much Voter Fraud was involved. Joe could be a Ghost Voter and the Ballot was manufactured. We do not get to the bottom of this possibility without a Forensic Audit. Suggestions: Since you guys are not doing a Voter Canvas or a Forensic audit, there are two good areas that you might be able to investigate using Freedom of Information Act requests. These fraud instances are part of Table Two. 1. Non-SVD Votes: I found a list of 367 WI Nursing homes (in the references). You should be able to ask WEC for a list of all Votes from these 367 Addresses. Ideally organized by Absentee - SVD, Absentee-Other, In-Person. It would be useful to do this for 2020, 2018, and 2016, so you can see the trends. This would give us a better handle on how many illegal non-SVD Voters there are. 2. Illegal Drop Box Votes. Request the custody records on the Votes delivered via Drop Boxes. Ideally, this would include the Registered Voter who turned in the Ballot. There were around 500 Drop Boxes mentioned. I estimated 500 Votes per Drop Box on the theory they were out there for around four weeks. This also provides a tie in with the True the Vote people who are looking at the 2,000 plus Vote Harvesters who were stuffing Drop Boxes. Please let me know what you think, send me comments and if there is an area I could be useful in give me a call. Thanks, Dr. Alan Blair 703-966-5355

Message: On December 14th, there were 10 Republicans that met in our state Capitol to declare themselves electors for Donald Trump. President Biden had won the election as determined by 3 voting counts in the state (the first one by the people voting, the second by the Republican Party, and the 3rd by the state legislature) AND the State Supreme Court. Yet, these 10 people, after all three counts and the State Supreme Court ruling, decided to try to overturn the election by sending in their fake/forged documents to the President of the US Senate and the National Archives. Please investigate this matter. IT is of the utmost urgency that this type of election fraud be dealt with in a timely manner so that it never happens again. You may contact me if you would like to know the names of the 10 Republicans that participated in this election fraud. I am also willing to send you the URL address as to where you can find a copy of their fraudulent document. Look forward to hearing from you.

Message: Gableman, We strongly object to your wasting of our tax dollars on your

Quixote like so called "unbiased" investigation of the 2020 election. Nobody elected you. A neutral legislative audit has not found any "fraud". The audit did make some constructive suggestions for improving the election process. Recounts and court decisions (some by Trump appointed judges) have put your spurious reported claims of a "stolen" election to rest. Your bully boy tactics and attempt to conduct secretive proceedings are disgraceful. I implore you to refrain from your continued embarrassment to our legal community as well as the community at large. Hon. Gary A. Gerlach (Ret.)

Message: There's a fraudulent election review going on by biased, corrupt hirelings of Mr. Vos and Mr. Gableman. It's intent is to prevent legitimate voters from participating in elections. The election reviewers should be prosecuted for their propagation of lies and their intent to corrupt future elections. Shame on you. What care you for facts or evidence. They just get in the way of your beliefs. Power to govern belongs to the people is right, you election crooks. Writing laws to inhibit the vote. And you know it.

She would not have in any way shape or form been capable of requesting an absentee ballot or of voting. Message: I think the largest concern for election integrity is the use of electronic voting machines without immediate paper receipts that have no way to effectively audit them. Statistician Beth Clarkson of Wichita State University examined results in Ohio, Wisconsin, and Kansas for the 2014 election showed signs of vote flipping based on the type of equipment used. While she is careful to point out it is not proof positive that something underhanded is going on, the results are certainly an indication that something nefarious might be going on. The principle she used is simple: If you fairly flip a fair coin 10 times, you might get results of 7/10 heads. But if you flip it enough times, it will see the cumulative statistics trend towards 50/50. Likewise, if you accumulate the vote in election races from the smallest precincts to the largest precincts, the percentage of the cumulative vote tended to rise for selected candidates, and in ways that would fly in the face of conventional wisdom, which would suggest vote flipping. I would suggest you contact her and get her testimony regarding the problem of electronic voting. Another expert in electronic voting is Bev Harris, who ran the website Blackboxvoting.org She has been bringing together reports of problems with electronic voting systems - from how easily they can be hacked (one group taught a monkey to do the key sequence to unlock a machine) to hacker hackathons which seem to have no problem getting into those systems. A key problem is that the companies that provide this equipment claim the software is proprietary and should not be released to the public. How do we know it accurately records the votes? How do we know it's not subject to hacking and manipulation? If we are concerned about election integrity, the use of direct recording electronic equipment with no paper receipts issued at the time of voting is one prime area to be eliminated. I have no problem with computerized optical scanning of hand-marked ballots when there are random post election audits of a percentage of the precincts and races. But to have an electronic machine record votes with no way to verify that it records them properly is begging for fraud.

Message: I need to report ongoing fraud from Republicans continuing to falsely claim, without any evidence, that the 2020 presidential election was stolen. They are defrauding Wisconsin taxpayers out of their tax dollars by paying for a fraudulent election "review" by a biased, incompetent, ignorant reviewer. They're taking these fraudulent actions with the fraudulent justification that they're to restore "election integrity," when it's their own lies and fraud that are eroding election integrity. They're arsonists who started the fire and are posing as the hero firefighters coming in to put it out, except they continue to pour gasoline on the the fire, fraudulently claiming to use water. Please look into that and get back to me ASAP. Our tax dollars and democracy depend on ending this fraud, and the criminals responsible for trying to overthrow our government be brought to justice.

Message: Each day new disturbing news is released about Michael Gableman from calling media coverage "fake" news, to comparing media coverage to Nazi propaganda to without evidence stating that the 2020 election was rigged against Mr Trump. Now it turns out that he did not consistently vote in the election process that he seeks to defend. He has attended the Mike Lyndell fiasco "convention in South Dakota, visited the discredited CyberNinja vote count in Arizona and hired an attorney who worked for the Trump administration. You changed your statement indicating that there may or may not have been uncooperative people. Later frustrated when questioned by the media, you hung up. Not a good look. This is a high profile situation and perhaps it would be best for your future prospects to , as my old boss in a national insurance company told us all at every company meeting.."Always ask yourself, what is the right thing to do?" Also, why does this site only list citizen statements from 7/28/21? Again, it seems that there must be additional submissions. Why has your office not listed all comments? Where is the transparency that this investigation should reflect? Future employers will be interested in how you conducted yourself here.

Message: Hello, I apologize for contacting you in this manner, but this was the way I was told to reach out regarding a media-related question. I'm reaching out for a story we are working on at the Wisconsin State Journal related to subpoenas issued today to five cities including Madison and Milwaukee. I was wondering if Justice Gableman might have just a few minutes to chat yet this afternoon on this – mostly hoping to get your thoughts on some of the mayors' reactions to the subpoena, timeline, materials requested, etc.? I'd be more than happy to give you a call at your convenience or could communicate via email if that works better on your end. In addition, would there be a more appropriate means of contacting for future inquiries? Thank you, -

Message: The fraud I witness is asking the Citizens of Wisconsin to spend enormous amounts of taxpayer money on an investigation lead by former Justice Michael Gableman to uncover irregularities in the 2020 election process. It amazes me that many Republican candidates running for various offices were elected to office on the same ballot as the Presidential candidate , Donald Trump who lost the 2020 election. How could accusations of fraud be present when one voter voted yes to GOP candidate A, B, C etc and voted no for Donald Trump? There is no fraud there. The votes were tabulated correctly. The ballots were not fraudulent nor was the method they were issued . The ability of a private citizen, me, to even obtain the contact information for the Office of the Special Counsel is not transparent but strewn with barricades to connect and voice my valid concerns. Mr Gableman visited Maricopa's CyberNinja fiasco and the My Pillow Guy SD conference . Both places reek of political vendettas and are not trustworthy bipartisan entities. Please discontinue this needless and expensive investigation. Wisconsin has proven through various recounts that the 2020 election was not fraudulent and needs no additional money spent to uncover fraud.

Message: Just wanted to let you know that there is a group named jointhe jury.digital that is doing some research on election fraud in Wisconsin. Commonsense Citizens of West Bend had a speaker Mary Jo Joyce, who is working with that group. I am not a part of jointhejury.digital. She read from a telegram post by a poster named 1776 . His post indicated that group had found registered voters with duplicate addresses, multiple registered voters with same name - same addresses.. many voters with birthdates of 1918. There was more. The group also said that Washington County had over 7,000 fraudulent votes. You may know of this group. I just wanted to let you know that their findings need to be investigated . It was troublesome to have this publicly reported, but no detail behind it.

Message: Wouldn't it be considered fraud to empower a partisan former judge who has already denounced the election as a fraud to be considered an impartial arbiter? That is clearly what happened here. Former Judge Gableman couldn't win an election, but the Legislature feels it is fair to put him in charge of administering an 'unbiased' examination of voting procedures. The use of taxpayer funds to support this effort is a clear manifestation of fraud by the legislator. And while you're at it, have you had any reports of fraud after July 28? That seems suspect as well.

Message: In July 2021 I requested an absentee ballot for the November presidential election. It only arrived on Election Day. Given that I am a registered Democrat, I

believe this may have been an intentional action to deny my vote for Joe Biden and suppress the Democratic vote in Wisconsin. I hope this will be investigated in the hope of allowing all Americans to vote and have their voice heard in elections. I'm tired of a Republican minority being able to manipulate voting laws to give them an unfair advantage.

Message: The fraud is being perpetrated by Gableman and Koster and Vos et all. Pretending to be honest when you have already lied that the 2020 was "stolen " is so obviously wrong that you should resign today and admit your dishonesty and fraud. Lies don't make truth and you know it. You are a disgrace to what was our proud democracy and undermining it in ways you don't, I suppose, fully comprehend. Or maybe you do, far worse.

Message: "Assembly Speaker Robin Vos of Rochester hired Gableman this summer and gave him a taxpayer-funded budget of about \$680,000. Initially, Vos hired retired cops to help Gableman, but they quit soon afterward." I'd like to report that false claims of election fraud are being used to enrich partisan individuals like Mr. Gableman using public money with no intention of achieving the flawed result those groups claim. Further, these individuals, once again like Mr. Gableman, are using taxpayer money to organize violent, vigilante groups for the furtherance of their imaginary claims.

Message: I am reporting election integrity maintained, not election fraud. For several elections I have requested an absentee ballot due to being concerned for my post surgery status when the election was scheduled or expecting to be out of the area on the election date. I received an absentee ballot for the 2020 presidential election; however, on electin day I was able to go to the voting site in person. I brought the absentee ballot and was instructed by the poll worker to tear it up which I did. I then signed in to vote in person, noting that the print info by my name in the book showed an absentee ballot had been sent. Why does your site have a section entitled "report election fraud" and another "report election integrity" but both end up at the report election fraud site?

Message: I believe my vote was changed and here is why. Before the election my spam was full of Republican e-mailed for donations. Then after the vote my spam was full of Democrats e-mailed for donations to Biden and Stacey Abrams asking for donations to Democrats and not one for Republican candidates. That's how I know it was changed. I called the chairmen's office for the election of Wisconsin to ask about the forensic audit the the secretary ask how I know my vote was stolen and I told her my story. Then my spam e-mails changed back to Republican again . Something is fishy. I have been a Republican voter for 20 years and always vote and have not received any ads from the Democrats until now. Here is my proof.

Message: A brief summary of my observations as a poll watcher from Tuesday, November 3rd at Fire Station 14: Arrived at 7:05 a.m. Election Inspector David checked me in (I presented photo ID and signed the log as an observer for the Republican Party). David handed me a brochure containing the rules for observers. I was required to wait in a lobby (the voting was occurring in a conference room) for about an hour before being allowed to enter the voting area to observe. David explained that he would be rotating me with the observers from the democrat party based on limited space for observers within the voting area (conference room), I was able to observe most of the activity from the lobby as the door was open and the rooms are separated by floor to ceiling glass windows. David was fairly consistent with the rotation (about one hour for the democrat observer, followed by about an hour for me). I worked the 7 -1:30 shift at Fire Station 14. The only issue I noticed was that the voters were not required to lower their face masks when presenting their photo ID. I pointed this out to David, the Election Inspector, who informed me that the voters are not required to lower their masks. I called the hotline to report this as well. The Inspector claims that the voters are not required to lower their masks due to concerns over COVID. The poll workers were protected from the spread of COVID due to the plexiglass barriers and the fact that all poll workers were wearing masks. Furthermore, I served as an observer during the April primary and the poll workers were requesting the voters to lower their masks. What has changed since April? It seems to me that the intent of the photo ID law is undermined when voters are not required to comply with the law. I don't blame the voters, but this strikes me as a sketchy avoidance of the photo ID law. The following summary is provided to document my observations on 9/26/2020 for the "Democracy in the Park". It should be noted that each location had two poll workers present. Upon my arrival at each location, I notified the poll workers that I would be nearby as an observer. I did not, nor was I asked about an affiliation with a campaign or political party. 1. Slater Park, 561 S. Segoe Road (9:00 a.m through 10:00 a.m.) - Not a lot of activity, approximately 4 voters turned in ballots. One voter filled out the ballot on scene and a poll worker signed as a witness. The poll workers appeared to be verifying that the envelopes were signed and had a witness signature. No voter registrations were observed. 2. Sunridge Park, 5901 Piping Rock Road (10:00 a.m. through 11:00 a.m.) - Not much activity, 2 voters turned in ballots. One voter presented an envelope with the witness signature appearing on the address line. Poll worker Barb Schneider contacted the Clerk's office for an opinion. The ballot was accepted. No voter registrations observed. 3. Waltham Park, 2617 Waltham Road (11:00 a.m. through

12:00 p.m.) - A television reporter from Fox 47 was on scene and finishing up an on camera interview of one of the poll workers. I spoke to the reporter about speaking to a representative of the Republican Party. The reporter requested a brief interview with me. After consulting with Ashley Krause, I accepted her advice and declined the interview. Not a lot of activity; approximately 6 voters dropped off ballots. The poll worker advised that they had accepted 46 total ballots from 9:00 a.m. through 12:00 p.m. No new voter registrations were observed. 4. Western Hills Park, 2401 S. Whitney Way (12:00 p.m. through 1:00 p.m.) - Upon arrival, I asked the poll workers about the number of ballots they had received for the day. Neither worker knew the number as their shift had just started at 12:00 p.m. Approximately five voters dropped off ballots. No new voter registrations were observed. 5. Westmoreland Park, 4114 Tokay Blvd.(1:00 p.m. through 2:00 p.m) - This site was busy. A steady stream of voters arrived throughout the hour. One voter was turned away for not having a witness signature on a sealed envelope. The poll workers advised that they did not have extra envelopes at the site. It should be noted that there was another observer present. It appears that she was present as a private citizen observer. No new voter registrations were observed. 6. Wingra Park, 824 Knickerbocker (2:00 p.m. - 3:00 p.m.) - At approximately 2:15 p.m., a male and female couple requested the paperwork to register as voters. The male produced a document and presented it to the male poll worker. I could not identify the document, but it appeared to be a lease agreement. The poll worker did not request a photo ID from either party registering to vote. I reminded the poll workers that a voter must present both a photo ID and a proof of residence to register. The male poll worker informed me that a photo ID is not required to register and therefore he would not be requesting a photo ID from either voter. He advised me that the registration form requires the voter to provide their Wisconsin Driver's License number claiming that was sufficient to verify the identity of the voter. It was evident that neither poll worker intended on complying with the law. I did not push the issue and asked for their names. The poll workers identified themselves as: Martha Moye David Hoffert The two new voters did not cast ballots although it appears that they were provided with documents (it was unclear to me whether the documents were absentee ballots or some other type of paperwork). I did observe that the male voter had a Wisconsin Driver's License (he referenced the DL for the number while he completed the form, however he did not present it to the poll worker). I overheard Hoffert complain about Robin Vos somehow trying to deny people the right to vote. That may not be a technical violation of the electioneering law, but it struck me as very unprofessional. I did not observe other poll workers express an overt partisan view, but it was apparent by the numerous complaints from voters that there is a hostility towards the Republicans. This was based on comments about the potential litigation from the GOP over the Democracy in the Park event.

Message: I filed a third WEC complaint against the WI 5 mayors, Center for Tech and Civic Life and CTCL's directors. I used different statutes than attorney Erick Kardaal with whom I've been working with for over a year. My allegations involve impeding the free exercise of the November 2020 election franchise. I believe the Wisconsin cost of election statutes that require municipalities to pay their own election costs barred the WI 5 municipalities from having CTCL pay their election administration costs.

Message: I previously submitted my WEC complaint against Michelle Obama and eight other members of the Obama White House to you. This is a separate WEC complaint. I filed a WEC complaint against Valerie Jarrett, et. al as I alleged election bribery, fraud, and threats. Jarret's organization held voting contests that 18 Wisconsin colleges participated in. Because the colleges received awards valued at more than \$1.00 for students' voter participation, I alleged election bribery. Because Wisconsin college students registered to vote for a contest, I alleged vote fraud. Because the voting contest administrators encouraged the use and submission of pledges to vote, plans to vote, and voting in groups, I alleged election threats. This was psychological threats since the pledges, plans, and group voting created obligations and "psychological dissonance." My attached complaint has more details and supportive proof to back up my allegations. I also filed four Federal Election Commission complaints. The FEC voted to approve three of my complaints, I'm waiting for approval for my fourth complaint. If what I wrote in my WEC and FEC complaints are substantiated, this will be the largest vote bribery and vote fraud in the history of country. Last night Judge Gableman sent your website link to Harry Wait who passed the information to me. Harry and I have had several in-person and phone conversations about election fraud during the last month.

Message: I attached a Wisconsin Election Commission complaint that I filed against Michelle Obama and eight other members of the Obama White House staff. The allegations are election bribery, election fraud and election threats. The bribery allegation is from Obama's organization giving a Milwaukee high school \$5,000 for prom in return for the students' voter registration. Bribery allegations also include Milwaukee early voting celebrations in which attendees received food, music and entertainment and then walked over to the nearby early voting polling place. Another bribery and fraud allegation comes from Obama and her organization food and voter registration drive that was held in Milwaukee. Obama's organization gave attendees large boxes of food after they registered to vote. My attached complaint explains the fraud, bribery and threat allegations in details and includes substantial supporting evidence. I also filed four Federal Election Commission complaints.
