Hi Tara and Amber, it was great to meet you in person yesterday and we should soon be good to go with the full ballot tracking system.

Do you want to plan to speak Friday or Monday to go over how to use it and make sure you're all set?

And then, for the map, I was able to download the ward shapefile, so all I'll need from you is the data from WisVote. There are two ways to do

1. You can run counts by ward for active voters, absentee ballot application and ballots returned.
2. You can download the full list of active voters and absentee ballots with ward/district combo and ballot status reason for the absentee

Good luck with early voting!

Michael
