

1. Walt Jankowski,

Walt Jankowski's son Walter Jankowski, couldn't find his father's voting records. He looked on the myvote website and discovered his father had requested a mail in ballot, voted and returned it all before election day. The Waunakee clerk told him that since no one in nursing homes has an ID, they aren't required to provide ID, all they have to give is consent that they want their vote cast and the aide fills out the ballot, seals it, and mails it. He asked how his dad gives consent since he doesn't speak or write and she said pointing is acceptable or an eye wink would be ok as well. He asked her why they didn't ask the legal guardians or family and she had no answer. He also pointed out that from April to at least November 2020 he was unable to visit his father. 3 women that "did all the ballots for the residents at {Waunakee] Manor" told him they didn't know if they did his father's ballot. He hasn't voted since 1972, this was the first time since then. The village clerk told him she couldn't send a copy of his ballot because "they are all mixed in ".

## 6. Lyla Alberts

Lyla Alberts, Dawn Riley's mother has suffered from long-term dementia and is at Marla Vista home at 1006 N. Military in Green Bay. In our initial meeting with Dawn, it was agreed we would video Lyla at the facility. Dawn had indicated in the initial interview that one of the activities directors of the facility potentially voted all the memory care patients. This subsequently proved to be the case where Laura Allard, an employee of the nursing home signed every absentee ballot envelope from that facility. We video taped Lyla on Dec 9th and found her to be cognitive, but confused, clearly not able to vote. On or about Dec 14th Ron Heuer made an open records request with the Brown County Clerk for all the absentee ballots envelopes from that location. The clerk was extremely cooperative and sent them to me as pdfs. Twenty-two people had voted at that location, however I only received 19 envelopes. Every envelope was signed by Laura Allard, an employee who is no longer at the facility. Strangely, one of the residents voted twice.
